

Safety for contractors

2016 - 2017

what

- 1 To avoid any human harm
- 2 Zero accidents/incidents as the final goal
For its own employees and its contractors
& subcontractors' staff

how

- 1 More severe qualification process and verification of the competences of contractors' staff
- 2 Earlier and better determining of the high-risk work situations and work periods
- 3 Works start only after a solid and validated work preparation
- 4 Reinforce guidance and supervision on the construction site
- 5 Strengthen the feedback of experiences in a sustainable way

why

Making sure everyone returns to his family
healthily and safely every day

action

Vendor management process

Safety is key in each phase of the Contractor management process
Our ambition is to work with best suppliers on safety

Q3 '16

Safety rules WL

Work leaders are key players when it comes to safety excellence
