

## Re: Invitation to information session on the laying of underground electricity cables

13 January 2020

Dear local resident,

In early January 2020, Elia, the operator of Belgium's high-voltage grid, began **laying underground electricity cables** in the municipalities of **Willebroek and Kapelle-op-den-Bos** with a view to ensuring that your local electricity grid will be able to meet future needs.

### Information session on 28 January

Work is scheduled to take place **soon in the vicinity of your home**. Elia is holding an information session on 28 January to provide you with all the information you need about this work, such as the purpose and schedule of the work, traffic diversions and possible disruption. The project managers will also be on hand throughout the event **to answer any questions**.

You are free to attend the session at any time **between 6 p.m. and 8 p.m. on Tuesday 28 January 2020**. It will take place at the following address:

Parochiaal Centrum Tisselt  
Beekstraat 31  
2830 Tisselt

On the **back of this letter** is a **map showing the project area** and the route of the underground electricity cables.

### Want more information about the project?

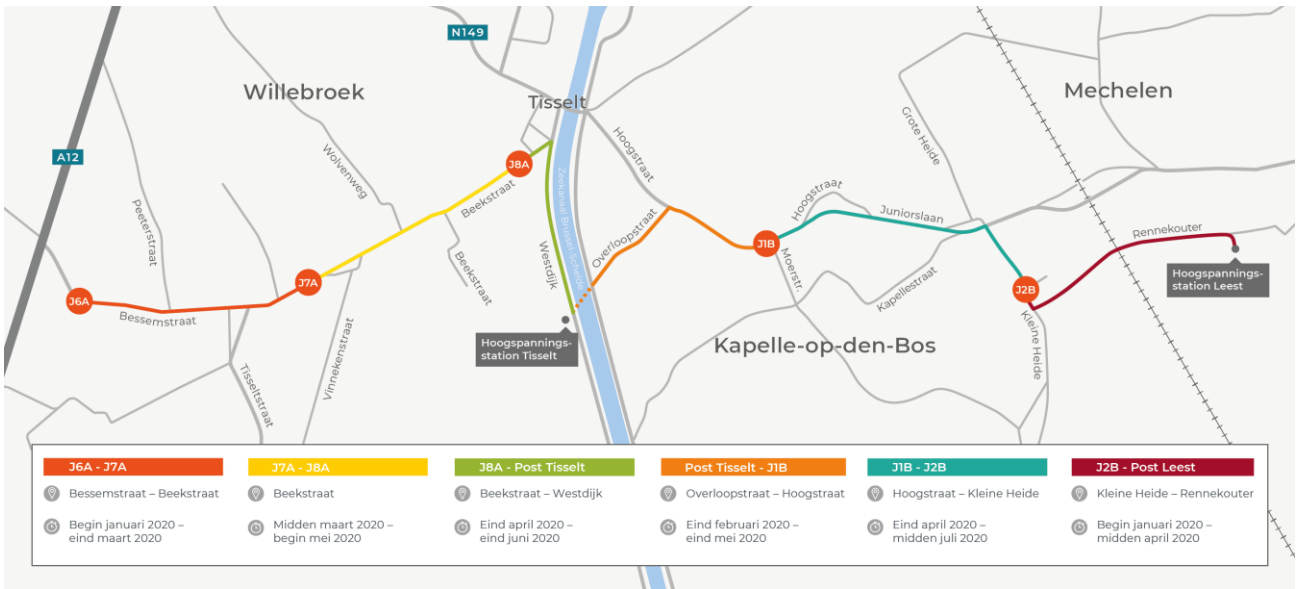

For more information about the Schelle-Malderen-Mechelen project or if you have any questions about accessibility to your business or home, do not hesitate to contact us at **omwonenden@elia.be** or on our **free hotline 0800 11 089** (during office hours). The latest updates on the project can be found online at <https://www.elia.be/en/infrastructure-and-projects>.

Best regards,

**Steven Rawoe**  
Programme Manager

**Iris Dhollander**  
Community Relations Officer
