**Cc:** Hebb Bob  
**Subject:** Public consultation relating to modifications of the Balancing Rules

A new answer to consultation "Public consultation relating to modifications of the Balancing Rules" has been submitted on our website.

First Name: Arnaud

Name : Latiers

e-mail : arnaud.latiers@actility.com

Organization : Actility

Comments : 1. Actility would like Elia to confirm that all delivery points that have participated historically in ICH but that could not be converted into the new mFRR (R3 non-cipu, R3 non reserved) mechanisms are eligible to the "slow non cipu incremental bids" product.

2. Actility would like to ask Elia to confirm that the granularity of the energy bids is 100 kW (above the minimum of 1 MW). This would allow Actility to reflect the diversity of his portfolio into different his different energy bids.
