<b>Organization</b>	FEBEG
<b>Comments/suggestions to the consultation</b>	<p>We ask Elia to inform the operator/owner of the plant/asset sufficiently in advance to ensure that the test (LFSM-O and LFSM-U) can be executed properly and in all safety. How this would be organized is not clearly mentioned in the document and should be clarified. Also, these test should be “exceptional” as mentioned by Elia (every 10 years).</p> <p>I remain at your disposal should you have questions and/or remarks.</p>
<b>Answer confidential ?</b>	Completely non-confidential
