Elia System Operator SA/NV

Boulevard de l'Empereur 20 | Keizerslaan 20 | 1000 Brussels | Belgium

With this Call for Members, Elia wishes to reach out to a large audience active in industry (energy and other), government, regulation, grid operation, academics, environmental organizations, study centers, consultancies,... to submit their application and become part of the Task Force Scenarios organized by Elia from 2021 onwards.

Elia establishes the Task Force, as a consultative body for the development of future scenarios for the power system. The Task Force aims at co-creating storylines & scenarios for electrical demand and supply, both qualitatively & quantitatively for the use in studies performed by Elia. The final deliverable of the annual scenario creation process is the publication of a Belgian scenario report that serves as input for these studies.

On an annual basis, the Task Force will organize a Call for Evidence followed by workshops in which various topics related to energy scenarios will be discussed openly with all present parties. Consequently, the annual scenario report will be drafted by Elia and submitted for public consultation. Enlisting in this task force will require active participation in the creation as well as the evaluation of the scenarios. To further clarify the goal of this new Task Force, Elia launches at the same time the Terms of Reference of this Task Force for public consultation.

If you are interested in co-creating the energy scenarios of the future, sharing your expertise on various energy related topics and learning from your peers, then this is your chance to join this initiative!

Task force members:

- Provide input during the Call for Evidence, the workshops, and the task force meetings
- Commit to active participation in the elaboration of the scenarios, bring forward their specific expertise, and work towards conclusions in a constructive mindset
- Act as ambassador in creating awareness for the Task Force and its scenario report
- Review minutes & reports created by the Task Force and provide feedback

How to apply to become a member of the TF:

Send an email to usersgroup@elia.be stating:

- Your name
- Your organization
- Your email, telephone number
- Short motivation of why you want to join the working group and how you can contribute
- Previous relevant experience
