Comments/suggestions to the consultation Dear Elia,

As a non-confidential response CBS supports the changes to the CRM functioning rules that are proposed by Elia. The only remark CBS would like to make is linked to the change of the opt-out decision to 5 days before bid submission deadline instead of 1 hour currently. We do understand the need to give Elia more time, but also underline that only one auction has passed, and that opt-out decisions remain an important and complex feature to handle, so giving at least 1 day until bid submission GCT would bring more flexibility to the CRM candidates if this feasible.

Regards,
