

Febeliec answer to the Elia consultation on the revision of the Access Contract

Febeliec would like to thank Elia for this final consultation on the revision of the Access Contract. Febeliec has no additional comments on the proposed text of the contract as it correctly reflects the compromise that was reached between the members of the Users' Group. Febeliec further hopes that no major additional modifications should be proposed or implemented after the very extensive discussions and consultations that have already taken place, as its agreement lies with the current compromise which reflects the maximum extent to which Febeliec is willing to compromise on the drop procedure, in line with the applicable legislation.
