

Methodology and data sources consultation

Strategic Reserve volume assessment

2020-27-04

Public consultation on methodology and data sources

Methodological improvements

- Flowbased
 - First use of Elia's midterm FB framework in SR (as used in the Adequacy and Flexibility study)
- E-Cube
 - Addition of complex bids in the assessments of market response
 - Look into multi-NEMO compatibility (Nord Pool + epexspot)
- Total demand forecasting
 - See next slide

The public consultation will take place from the 15/05 to the 12/06

Planning and updated next steps after the second workshop
